

Richard B. Schultz, Ph.D. C.P.G., OTC

Associate Professor of Geosciences and GIS
Coordinator, Elmhurst College Online GIS Certificate Program
Department of Geography & Geosciences
Elmhurst College
190 Prospect Avenue
Elmhurst, IL 60126-3296
Phone: (630) 617-3128
FAX: (630) 617-3739
E-Mail: richs@elmhurst.edu
Web Page: www.elmhurst.edu/~richs (Academic)
Office: 316 Daniels Hall

Educational Background

- Ph.D., Environmental (Low Temperature) Geochemistry/Geology, *University of Cincinnati*, 1991, Dissertation: "Geochemical Characteristics of Midcontinent Pennsylvanian Black Shales" Advisor: J. Barry Maynard; Schultz, R. B., 1991, Geochemical characterization of black shale types in the Midcontinent Pennsylvanian. Unpubl. Doctoral Dissert., Univ. of Cincinnati, Cincinnati, OH, 489 p. (Available as Kansas Geological Survey Open-file Report no. 1991-53).
- M.S., Stratigraphy/Sedimentology, *Wichita State University*, 1988, Thesis: "Depositional Environment of the Iowa Point Shale Member" Advisor: Daniel F. Merriam; Schultz, R. B., 1988, Depositional Environment and Petrology of the Iowa Point Shale Member (Topeka Limestone Formation, Shawnee Group, Upper Pennsylvanian) In eastern Kansas. Unpubl. Masters Thesis: Wichita State University, Wichita, KS, 151 p.
- B.S., Geology, *Illinois State University*, 1985, Field Camp: Black Hills, South Dakota; Big Horn Mts., Wyoming.

Teaching Experience

2010-present Associate Professor (tenured) Elmhurst College Department of Geography and Geosciences, Responsible for organization and teaching of physical geography courses as well as GIS courses. Also co-teach First-Year Seminar (FYS) course, coursework in Honors Program, and Study Away course (Australia).

2005-present Coordinator, Elmhurst College GIS Certificate Program.

2004-2010 Assistant Professor (tenure track), Elmhurst College, Department of Geography and Geosciences, Responsible for organization and teaching of geography courses as well as GIS courses. Also co-teach First-Year Seminar (FYS) course.

2000-2004 Adjunct Faculty, Elmhurst College, Department of Geography and Environmental Planning, Responsible for organization and teaching undergraduate Physical Landscapes and Weather and Climate courses. Also designed "January" term course: Introduction to the Environmental Industry (ENV 303).

1998-2002 Adjunct Faculty, Oakton Community College, Department of Allied Health Sciences, Skokie and Des Plaines, Illinois campuses, Responsible for organization and teaching of introductory earth science lecture and laboratories and geography lectures.

1998-2004 Adjunct Faculty, College of DuPage, Department of Natural Sciences, Glen Ellyn, Illinois, Responsible for organization and teaching of introductory earth science lecture and laboratories.

1999-2004 Adjunct Faculty, William Rainey Harper College, Department of Geology and Earth Sciences, Palatine, Illinois, Responsible for organization and teaching of introductory physical geology lecture and laboratories and physical science survey lectures.

1998-2000 Instructor, Moraine Valley Community College, Department of Natural Sciences, Palos Hills, Illinois, Responsible for organization and teaching of introductory physical geology lecture and laboratories.

1988-1991 Chief Teaching Assistant, University of Cincinnati, Department of Geology, Cincinnati, Ohio, Responsible for organization and oversight of introductory geology laboratories and supervision of nine graduate assistants. Awarded Outstanding Teacher Award in 1990.

1986-1988 Head Teaching Assistant, Wichita State University, Department of Geology, Wichita, Kansas, Responsible for organization and oversight of introductory geology laboratories and supervision of six graduate assistants. Awarded Daniel F. Merriam Outstanding Teacher Award in 1987. Served as Lecturer for Summer Geology courses in 1987 and 1988.

Academic Record

Courses Taught at Elmhurst College.

- GEO 101/105. Weather and Climate, Intro. to Meteorology, Intro. to Atmospheric Science. both classroom and online formats
- GEO 102. Physical Landscapes, Earth's Landforms, and Earth System Science (both classroom and hybrid formats)
- GEO 300. Global Climate Studies (one time only offering)
- GEO 302. GIS and the Urban Environment, Environmental Problems in the Urban Setting
- GEO 305. Geology of National Parks (January Term course)
- GEO 307 and 207. Geographic Information Systems (GIS); Intro. to Spatial Thinking (both classroom and hybrid formats)
- GEO 470/471. Research Methods in Geography and Geosciences, Senior Capstone Experience
- GEO 353. Global Climate Change. The Science Behind the Myths (January Term)
- GEO 390. Geography & Geosciences Cultural Study and Off-Campus Experience. Australia
- ENV 303. Introduction to the Environmental Industry
- ENV 304. Environmental Toxicology
- ICS 270. Intercultural Studies. Intercultural Basics Seminar I
- FYS 100. First Year Seminar (Global Climate Change; The Science of Learning)
- HON 350. Honors Directed Readings. 2007, 2008, 2011
- HON 404. Honors Capstone. Global Climate Change (2008) and Poverty (2011)

Courses taught at other Institutions.

- Earth Science (Includes Geology, Oceanography, Meteorology/Atmospheric Sciences, Astronomy) (College of DuPage, Moraine Valley Community College)
- Physical Geology (Lecture and Laboratory sections) (Moraine Valley Community College, Harper Community College, Wichita State University and University of Cincinnati)
- Geology for Engineers (Univ. of Cincinnati)
- Igneous and Metamorphic Petrology (Wichita State University and University of Cincinnati)
- Sedimentary Petrology (Wichita State University)
- Field Methods and Geologic Mapping Techniques (Wichita State University)
- Physical Science Survey (Harper Community College)

Curriculum Development at Elmhurst College.

- GEO 207. Intro. to Spatial Thinking
- GEO 300. Global Climate Studies (one time only offering from NASA/NOAA/AMS Grant)
- GEO 305 "A Visual Tour of America's National Parks. Focus on Geology and the Environment" (J-Term 2007 and 2009)
- GEO 353 Global Climate Change. The Science Behind the Myths (J-Term 2006, 2008, and 2010)
- ENV/GEO 302 Environmental Problems in the Urban Setting
- ENV 303 Introduction to the Environmental Industry (J-Term 2003)
- ENV 304 Fundamentals of Environmental Toxicology
- GIS 100 Fundamentals of GIS (GIS Certificate Program)
- GIS 200 Adv. Remote Sensing Techniques (GIS Certificate Program)
- GIS 300 Capstone. GIS Applications (GIS Certificate Program)
- GEO 390 Geography and Geosciences Cultural Study and Off-Campus Experience (cross-listed with ICS 390)
- FYS 100 First Year Seminar (Global Climate Change, Fall 2007, 2008, and 2009) co-taught with Mr. Ian Crone (Associate Dean of Students)
- FYS 100 First Year Seminar (The Science of Learning, Fall 2010), co-taught with Mr. Ian Crone (Associate Dean of Student Affairs)
- HON 404. Honors Capstone – Global Climate Change; with Dr. Russell Ford (Dept. of PHL), Spring 2008 and "Mapping Poverty" (2011)

Grant Support

- National Spatial Data Infrastructure (NSDI) CAP Grant; collaboration with Champaign County Users Group, 2010-2011.
- Elmhurst College Bi-Disciplinary Grant with Dr. Merrilee Guenther (Department of Biology). Ocean Studies course – General Education Course, \$4000
- NASA, NOAA, and the American Meteorological Society (AMS). Pilot Study Curriculum Grant: Global Climate Studies curriculum grant for Course Development (2009-2010), \$1500

- Associated Colleges of Illinois, joint grant with Elmhurst College Departments of Education, Kinesiology and the Honors Program. "Collaboration for Multicultural Literacy", 2006–2008, \$10,000
- ESRI Educational Grant: two (2) software grants for GIS Certificate Program, 2006–2007, \$258,000
- Elmhurst College Summer Faculty Research Grant: 2005, 2006, 2007, 2009 (2 grants; \$500 each) total. \$2500
- Kansas Geological Survey, "Geochemical Aspects of Midcontinent Pennsylvanian Black Shales"; 1990 (Sponsors: Dr. C. Maples and Dr. Lynn Watney) Sigma Xi, The Scientific Research Society, "A Chromium Reduction Method for Speciation of Sulfur In Reducing Environments"; 1990, \$2500
- Geological Society of America, "The Stratigraphic Interpretation of Midcontinent Pennsylvanian Black Shales"; 1990, \$1500
- University of Cincinnati Research Council Fellowship, "The Degree of Pyritization (DOP) as an Indication of Bottom-Water Oxygenation Conditions of Midcontinent Pennsylvanian Black Shales"; 1990, \$3000

Honors and Awards

- 2010 Illinois GIS Association Richard Hilton Award, collaboration between GIS community professionals, October 2010
- 2009 Illinois GIS Association Service Award, service to the GIS community in Illinois and nationally, October 2009
- 2008 Inducted into Pi Lambda Theta, *International Honor Society and Professional Association in Education*
- 2008 Awarded the "Distinguished Teaching Award for Colleges/Universities" (DTA) by the National Council of Geography Education (NCGE)
- 2007 Nominated for "Excellence in Teaching Award" by Elmhurst College students
- 2006 Elmhurst College GIS Certificate Program nominated for Illinois Council on Continuing Higher Education's (ICCHE) Innovative Initiative Award
- 2005 American Biographical Institute (ABI), Research Board of Advisors
- 2005 Inducted into "Who's Who Among America's Teachers"
- 2002 Inducted into "Who's Who Among America's Teachers"
- 2001 Oakton Community College, Finalist, Ray Hartsfield Outstanding Teaching Award
- 1996 Inclusion in Distinguished Business Leader's Association
- 1992 Outstanding Employee Award for Midwest Region, Roy F. Weston, Inc.
- 1991 Inclusion in "Who's Who in American Universities and Colleges"
- 1990 Outstanding Teaching Award, University of Cincinnati, Dept. of Geology
- 1987 Daniel F. Merriam Award for Outstanding Teaching and Research, Wichita State University,

Service Activities

Elmhurst College

- Appointed to Instructional Technologist Search Committee, Spring Term, 2012.
- Appointed to two-year term. Faculty Development Committee, 2011–2013
- Elected to two-year term. Board of Trustees Alumni Representative, 2011–2013
- First Year Seminar (FYS) Task Group, 2009–present
- Distance Learning and Online Subcommittee, chair, 2009–2010
- Technology Steering Group (TSG), 2009–present; appointed three-year term in 2010
- School for Advanced Learning (SAL) Review Task Force, appointed by Dean of Faculty, 2009–2010
- Appointed, First Year Seminar Course Proposal and Description Committee, 2009
- Organizer, Early Career Faculty Group, 2007–2009
- Member, Adult General Education Task Force, selected by Dean of Graduate Studies, Dean John Bohnert, Fall 2008.
- LeaderShape Organizing Committee and Student Mentor, Spring 2008, 2009
- Search Committee, Student Affairs, Assistant to the Dean for Student Success, selected by Dean Eileen Sullivan, Fall 2007.
- Search Committee, School for Advanced Learning, Executive Director, selected by Dean Alzada Tipton, Spring/Summer 2007.
- First Year Seminar Pilot Study, Spring 2007–present
- One-Semester Sabbatical Replacement, Elmhurst College Director of Intercultural Education (DICE) for Dr. Kathleen Rust. Spring 2007
- Advanced Learning Committee, Chair, elected, Class of 2008
- Alternate Delivery Committee. Fall 2007–Spring 2008, representative of School for Advanced Learning
- Intercultural Education Action Committee, Ad Hoc Committee, 2004–present
- Intercultural Task Force, 2006–present

External.

- 2012 Co-Organizer and Panelist, Association of American Geographers (AAG) Annual Meeting, Oral and Panel Discussion, "Teaching quantitative methods in Geography: challenges, opportunities and new ways of learning", co-chair with Dr. Rich Harris, Univ. of Bristol, U.K., New York City, NY, Feb., 2012.
- 2011 Co-Organizer and Panelist, National Council for Geographic Education (NCGE) Annual Meeting, Oral and Panel Discussion, "*Publishing in the Journal of Geography*", co-chair with Dr. Jerry Mitchell, Univ. of South Carolina, Portland, OR, August, 2011.
- 2011 Co-Organizer and Panelist, National Council for Geographic Education (NCGE) Annual Meeting, Oral and Panel Discussion, "*Teaching Geography Online. Sharing Experiences*", co-chair with Sonja Yow, eastern Kentucky University and Michael Ritter, Univ. of Wisconsin-Stevens Point, Portland, OR, August, 2011.
- 2011 Appointed, National Council for Geographic Education (NCGE), Nominating Committee.
- 2011, Re-Elected, Association for American Geographers (AAG) Chair of Geography Education Specialty Group (GESG) for 2-year term; 2011- 2013.
- 2011, appointed as Chair to the National Council for Geographic Education Awards Committee for the Distinguished Teaching Award
- 2011, Organizer and Co-Chair, "*Teaching and Learning Geography at a Distance. What's New and Exciting?*", co-chair of two sessions and one panel discussion with Dr. Michael DeMers, Association of American Geographers Annual Conference, Seattle, WA, April 2011.
- Named to the *Journal of Geography* Editorial Board, National Council for Geographic Education (NCGE), 2010
- 2010 Elected in Fall 2010; Illinois GIS Association (ILGISA) Board of Directors, 2-year term, 2010-2012.
- 2010 Recommended for Spring 2010 Slate for the National Council for Geographic Education (NCGE) Executive Planning Board. nominated by former NCGE President Janet Smith.
- 2009, Elected, Association for American Geographers (AAG) Chair of Geography Education Specialty Group (GESG) for 2-year term.
- 2009, Co-Chair, Illinois GIS Association (ILGISA) Fall Conference Planning Committee, Naperville, IL
- 2009, Organizer and Chair, Illinois GIS Association (ILGISA), Student Paper and Poster Session, Spring Conference, 2009, Champaign, IL
- 2009 Organizer and Chair, Association of Amer. Geographers Annual Meeting, Oral Session, "Geography Education Specialty Group Student Paper Competition", Las Vegas, NV, March, 2009.
- 2008 Elected in Fall 2008; Illinois GIS Association (ILGISA) Board of Directors, 3-year term
- 2008 Recommended for Spring 2009 Slate for the National Council for Geographic Education (NCGE) Executive Planning Board. Publications and Products Committee, nominated by NCGE President Janet Smith.
- 2008 Member of Fall Conference Planning Committee for Illinois GIS Association (ILGISA)
- 2008 Named to the Association of American Geographers (AAG) Membership Committee for a two-year term, 2008-2010
- 2008 Organizer and Chair, Association of Amer. Geographers Annual Meeting, Oral Session, "Geography Education Specialty Group Student Paper Competition", Boston, MA, April, 2008.
- 2008 Co-Organizer and Chair, Association of Amer. Geographers Annual Meeting, Oral and Panel Discussion, "Geographic Literacy and GIS Education", co-chair with Dr. Lynn Songer, Lane Community College, Boston, MA, April, 2008.
- 2007 Member of Fall Conference Planning Committee for Illinois GIS Association (ILGISA)
- 2007 Elected as National Chairperson of College Geography and Careers Committee. Association of American Geographers. 1-year term
- 2007 Organizer and Chair, Association of Amer. Geographers Annual Meeting, Oral Session, "Geography Education Specialty Group Student Paper Competition", San Francisco, CA, April, 2007.
- 2007 Co-Organizer and Chair, Association of Amer. Geographers Annual Meeting, Oral and Panel Discussion, "Active and Problem-Based Learning (PBL). GIS and the Educator", co-chair with Dr. Art Samel, Bowling Green State Univ., San Francisco, CA, April, 2007.
- 2007 American Association of Petroleum Geologists (AAPG), Division of Environmental Geosciences 20-year service
- 2006 Co-Organizer and Chair, National Council of Geographic Education (NCGE) Workshop, "Best Practices of Online Instruction Leading to Deeper Learning", also co-presenter with Drs. Bronwyn Owen, Gail Hobbs, Buck Buchanan, and Jim Brey, Lake Tahoe, NV, Oct. 2006.
- 2006 Elected to three-year term as member of Board of Directors of Association of American Geographers (AAG) Geography Education Specialty Group (GESG).
- 2006 Co-Organizer and Chair, Association of Amer. Geographers Annual Meeting, Panel Discussion, "Integration of GIS into the K-12 Curriculum", co-chair with Dr. Art Samel, Bowling Green State Univ., Chicago, IL, March 2006.
- 2006 Co-Organizer and Chair, Association of Amer. Geographers Annual Meeting, Technical Session, "The Infusion of GIS into Various Disciplines. Spatial Education at its Most Useful", Co-organizer with Dr. Rich Greene (Northern Illinois Univ.) Chicago, IL, March 2006.
- 2005-2006 Local Planning Committee for Annual Meeting, Chicago, Spring 2006, Association of American Geographers (AAG) National Meeting.
- 2005 Elected as member of College Geography National Committee. Association of American Geographers. 3-year term
- 2005 Chair/Co-Convener (with Drs. Mark Hafen, Univ. of South Florida and Christopher Haley, Virginia Wesleyan College, Geological

Society of America Annual Meeting, Salt Lake City, UT, Oct. 2005, Technical Symposium, "Interdisciplinary Education: Applications of GIS And the Infusion of Spatial Concepts Across the Curriculum"

- 2003 Chair/Co-Convener (with Dr. Tim Lyons, Univ. of Missouri-Columbia): Geological Society of America Annual Meeting; Seattle, WA, Nov. Technical Symposium "Revisiting the Biogeochemistry of Black Shales and Oxygen-Deficient Marine Environments"
- 2003 Co-Guest Editor (with Dr. Sue Rimmer, Univ. of Kentucky) of Special Issue Journal of *Chemical Geology*; included twelve international papers on black shale geochemistry.
- 2002 Chair/Co-Convener (with Dr. Sue Rimmer, Univ. of Kentucky): Geological Society of America Annual Meeting; Denver, CO, Oct. 2002; Technical Symposium: "Black Shales and Chemostratigraphy"
- 2000 -2002: Board of Directors, Illinois Association of Environmental Professionals

Professional Memberships

- National Council for Geographic Education (NCGE), 2004-present; National Vice President for Products and Publications, 2012-2015.
- Association of American Geographers (AAG), 2004-present
- American Association for the Advancement of Science (AAAS), 1987-present
- Illinois GIS Association, member since 2005, Board member 2008-2012.
- Illinois Municipal Arc Users group (iMAUG), 2006-present
- National Association of Geoscience Teachers (NAGT) 1997-present
- Sloan Consortium, member, 2011-present.
- Council on Undergraduate Research (CUR), member 2008-present.
- Pi Lambda Theta, Honorary Geographical Education Organization, 2008-present
- American Geological Institute (AGI), 1996-present
- Sigma Xi Research Society 1988-Present
- American Institute of Professional Geologists (AIPG #10188) 1997-present
- GSA Partners for Education Volunteer Teaching Program 1996-present
- Sigma Gamma Epsilon (SGE) Honorary Geology Organization 1986-present
- Geological Society of America (GSA) 1992-2008
- American Association of Petroleum Geologists (AAPG) 1986-2006
- AAPG Division of Geosciences (DEG) Charter Member 1993-present

Professional Certifications

- Online Teaching Certificate (OTC), Sloan Consortium, 2010
- American Institute of Professional Geologists (AIPG) C.P.G. # 10188; 1997-present
- Certified Professional Geologist (C.P.G. #229)-State of Illinois 1997-present
- Certified Severe Weather Spotter, National Weather Service, National Oceanographic and Atmospheric Administration (NOAA), 2005-present
- National Safety Council/American Red Cross First Aid/CPR 1991-present
- Certified Professional Geologist (C.P.G. #1540)-Pennsylvania 1995-2011
- Certified Professional Geologist (C.P.G. #1552)-State of Indiana 1994-2005
- Hazardous Waste Operations (HAZWOPER) OSHA 40-Hour 1991-1998
- OSHA Confined Space Entry Certification 1993-1998
- OSHA Hazardous Waste Supervisors Certification 1993-1998
- OSHA Bloodborne Pathogens Certification 1991-1998

Invited Presentations including Workshops

- "How Employers Can Develop a Relationship with Future Geospatial Workers and What Spatial Skill Sets to Seek In an Employee", presented at the Illinois GIS Association Fall Conference, Naperville, IL, October, 2011.
- "Learning to Implement the Geospatial Technology Competency Model (GTCM). An Update", presented at the Illinois GIS Association Fall Conference, Champaign, IL, May, 2011.
- "Remote desktop from a Dedicated GIS Server: Case Study", presented at the Illinois Municipal Arc Users Group (iMAUG) meeting, March 2011.
- "Meteorology, Severe Weather, and Careers in the Atmospheric Sciences", presented to the fifth grade at Windsor Elementary School, Arlington Heights School District 25. Feb., 2011.

- *Learning to Implement the Geospatial Technology Competency Model (GTCM)*, presented with Dr. Mike Rudibaugh Lake Land College, Matoon, IL, at the Illinois GIS Association Fall Conference, Naperville, IL, October, 2010.
- *The Geospatial Curriculum at Elmhurst College*, presented in April 2010 to the Illinois Municipal Arc Users Group (iMAUG), Lombard, IL.
- "Careers in the Geosciences", Churchville Middle School, April 2010, Elmhurst, Illinois.
- *Add Culture to Your Classes: Hawai'i's Cultural Traditions and Geographic Influences*, Concordia University, River Forest, IL, The Herbert Gross Teaching Geography Workshop, Jan., 2009.
- *Using Spatial Thinking Tools to Promote Critical Thinking, Problem Solving, and Lifelong Learning*, Dare to Dream Initiative, AAUW (formerly known as the American Association of University Women), January 2010.
- *Teaching Spatial Concepts with Google Earth®: A Virtual Scavenger Hunt*, Concordia University, River Forest, IL, The Herbert Gross Teaching Geography Workshop, Jan., 2008.
- *The Real Science Behind the Global Climate Change Controversy*, Glenside Library, April 2007; Elmhurst College Speakers Bureau.
- *Using GIS in Health Professions*, NRS 412, Terry Johnson, Instructor, March 1, 2007.
- *Using GIS in Various Disciplines*, HON 207 (GEO 111), Dr. Michael Lindberg, Instructor, February 23, 2007.
- *Teaching Spatial Concepts with Google Earth®: A Virtual Scavenger Hunt*, Concordia University, River Forest, IL, The Herbert Gross Teaching Geography Workshop, Jan., 2007.
- *Theology and Geology: Controversies and Progress*, invited presentation for THL 350 "God and Science: Religion and the Universe", Mr. Mladen Turk, Fall 2006
- Associated Colleges of Illinois, joint grant with Elmhurst College Departments of Education, Kinesiology, and the Honors Program. *Collaboration for Multicultural Literacy*, Des Plaines, IL, Sept. 29, 2006.
- *Teaching Spatial Concepts with Google Earth®: A Virtual Scavenger Hunt*, Concordia University, River Forest, IL, The Herbert Gross Teaching Geography Workshop, Jan. 21, 2006.
- *Using GIS for Diverse Applications* Elmhurst College, Math Science Seminar, Summer 2005
- *The Implementation of a Geographic Information Systems (GIS) Certificate Program at a Liberal Arts College. Case Study of Elmhurst College*, Geological Society of America Annual Meeting, October 2005, Salt Lake City, UT
- *Chemostratigraphic relationships of black shale deposits in Midcontinent, U.S.A.: evidence for fluctuating geochemical conditions*, Department of Earth and Environmental Sciences at the University of Illinois at Chicago; Departmental Seminar, Sept. 2005
- *Using GIS for Diverse Applications* Elmhurst College, Math Science Seminar, Summer 2005
- *Using Geographic Information Systems (GIS) for Geochemical Applications* Elmhurst College Faculty Forum, Spring 2005

Professional Development/Continuing Education

- Sloan-C Online Teaching Certification. Jan. 2010–December 2010. four workshops including Fundamentals of Online Education, Using the Quality Matters Rubric, Workload Management Strategies, and Academic Integrity in the Online Setting.
- *Teaching Teachers to Teach GIS (T3G)*, Redlands, CA, June 14–20, 2009.
- *Creating Effective Web Maps*, ESRI Workshop, May 2009, Lisle, IL.
- *Introduction to Spatial Concepts*, Illinois GIS Association Workshop, Spring Conference, Champaign, IL, April 2009.
- Lilly Conference. University of Miami, Oxford, OH, Nov. 16–19, 2008
- National Center for Atmospheric Research (NCAR) Online Short Courses in Global Climate Change (2008)
- Council on Undergraduate Research (CUR) Conference, Alexandria, VA, March 2007.
- Lilly Conference. University of Miami, Oxford, OH, Nov. 16–19, 2006
- *Healthy Departments* Initiative, sponsored by the Association of American Geographers (AAG), Athens, GA, June 9–11, 2006.
- *Developing Effective and Innovative Courses in the Geosciences*, National Science Foundation, sponsored by the National Association of Geoscience Teachers "On the Cutting Edge" Program, Weed, CA, May 31–June 4, 2006.
- Lilly Conference. University of Miami, Oxford, OH, Nov. 17–20, 2005
- Illinois GIS Association (ILGISA) Conference. Oak Brook, IL, Nov. 15, 2005. "Using GIS for Spatial Analysis with Application Examples From Local Government, Business, and Urban Planning – One Day Workshop at NIU–Naperville Computer Lab, Presented by Dr. Rich Greene, NIU Geography, Nov. 14, 2005
- *Global Warming: A Threat to Biodiversity*, Northwestern University, Oct. 22, 2005.
- Geography Faculty Development Alliance (GFDA), Boulder, CO, June 18–25, 2005. NSF sponsored extended workshop.
- *Using Geographic Information Systems for Community Development* Short Course, Chicago, IL, May 2005
- *Mapping Chicago Communities: An Introduction to GIS and Community Analysis*, GIS Short Course by New Urban Research, Inc., Chicago, May 2005
- Midwest Faculty Seminar, "Global Warming" University of Chicago, April 28–30, 2005.

- The Teaching Professor Conference, May 20–22, 2005, Schaumburg, IL
- Tornado and Severe Storms Conference. Fermilab, Batavia, IL, April 9, 2005 and April 8, 2006.
- Process Education Conference, Elmhurst College, Research-Based Practitioners, June 2004
- 21 ESRI GIS Online Short Courses. Geographic Information Systems
- Short Course. "How to Obtain a Full-Time Teaching Position and Secure Tenure", Geological Society of America, Boston, MA, 2001
- "Certified Hazardous Materials Management" Training, Madison, WI, 1995
- Short Course. "Technical Writing", Roy F. Weston, Inc., 1993
- Continuing Education Course. "Treatment Technology for Hazardous Soils and Groundwater", National Groundwater Association, 1992

Professional and Industry Experience

1997-1998 Private Environmental Consultant, Round Lake Beach, Illinois, Provided consulting services for clients in areas of environmental remediation, site assessment, UST removal, waste disposal services, and soil/groundwater cleanup.

1996-1997 Project Manager/Hydrogeochemist, Environmental Science & Engineering, Inc., Chicago, Illinois, Managed high-profile environmental contracts for confidential federal clients, provided services as office specialist in environmental risk assessment, and acted as office liaison between clientele and analytical laboratory.

1996 (Fall) Computer Programmer, Allstate Insurance Company, Northbrook, Illinois (Temporary position) Assisted in the organization of large client database of insurance details.

1995-1997 Owner and Operator of *Dr. Desktop, Inc.*, Round Lake Beach, IL private desktop publishing company. Specialized in logo design, database compilation, business card design, and other miscellaneous computer-oriented desktop services.

1995-1996, Corporate Health and Safety Director/Hydrogeochemist, Advent Environmental Services, Inc., Mequon, Wisconsin, Responsible for initial development of company's corporate health and safety program, managed approximately 45 small environmental cleanup programs for local clientele and petroleum marketing industry.

1991-1995 Geochemist/Associate Project Geologist, Roy F. Weston, Inc. Vernon Hills, Illinois, Conducted environmental field assessments and sampling at over 200 environmental sites including 10 CERCLA (Superfund) sites. Served as team leader for U.S. EPA Region V Site Screening Investigation (SSI) Team.

1982 Computer Inventory (Summer Internship), Allstate Insurance Company, South Barrington, Illinois, In charge of computer furniture inventory database for new corporate office. Assisted employees in acclimating to new working environment.

Selected Environmental Industry Project and Consulting Experience.

Moss-American Wood Treatment Facility, CERCLA (Superfund) site, Kerr-McGee Corp., Menomonee Falls, WI, Task Manager/Lead Geologist. Responsible for all site activities and implementation/organization of seven phases of investigation and remediation. Aided in design/installation of DNAPL product recovery system. Supervised installation of over sixty soil borings and thirty on-site monitoring wells. Responsible for all budgetary aspects of project and management of all site personnel.

U.S. Army Corps of Engineers (USACE) Multi-site Contract, Chicago District, Illinois and Indiana, Project Manager. In charge of proposal preparation, negotiations with USACE, organization of Work Plans and Sampling/Analysis Plans for ten work orders totaling approximately \$500,000 in budget. Work orders varied from sump investigation at chemical company, analysis of deep well contamination in municipal water system to UST Phase I/II investigations, and Brownfields sites. Very close contact with client and task managers.

Groundwater Investigation, U. S. EPA CERCLA (Superfund) site, Rock Creek, OH, Geochemist. Sampled 24 compliance monitoring wells and prepared quarterly and annual sampling evaluation reports for a period of three years on a carcinogenic solvent release site.

U. S. Department of Energy (DOE) Mixed Waste CERCLA (Superfund) site, Miamisburg, OH, Geochemist. EG&G Mound site in Miamisburg, Ohio. Responsibilities included sampling surface and subsurface soils and groundwater, installation of soil borings and monitoring wells, strict EPA sampling protocol (CLP; Contract Laboratories Program), and screening radioactive samples with instrumentation. Involved in operating units (OU-1 and OU-9) with offsite access negotiations. Granted security clearance for government projects.

Remedial Investigation (RI), ARCO Pipeline Company, Toledo, OH, Geochemist. Responsibilities included surveying of sampling grid for reconnaissance investigation, implementation of soil borings program and monitoring well installation, monitoring well development and sampling, hydraulic conductivity testing, and preparation of RI final report to Federal and State EPA. Soil and groundwater samples were collected to assess plume migration of petroleum hydrocarbons and aid in aquifer characterization. Additional responsibilities included oversight of drilling contractor and sampling operations as well as screening of samples. Compiled information for ARCO database. Close contact with client.

RCRA Facility Assessment, Aztec-Catalyst Co., Grafton, OH, Geologist. Responsibilities included investigation of geologic setting of site and region, compilation and organization of geochemical data, presence of contaminants, and groundwater flow direction. Principal author of RCRA Facility Investigation (RFI) Final report.

RCRA Facility Investigation (RFI), Moen Faucet Company, Elyria, OH, Geochemist. Responsible for data organization and implementation of remedial measures. Wrote multi-volume RFI Final report for client and regulatory agency.

Remedial Investigation (RI), ARCO Pipeline Company, Goshen, IN, Geochemist. Responsibilities included surveying of sampling grid for reconnaissance investigation, implementation of Geoprobe soil borings program and monitoring well installation, monitoring well development and sampling, hydraulic conductivity testing, surveying of monitoring wells, and preparation of RI final report to Federal and State EPA. Soil and groundwater samples were collected to assess plume migration of petroleum hydrocarbons and aid in aquifer definition. Close contact with client.

Mixed Waste site, U.S. EPA, ARCS site, Velsicol Chemical Co., St. Louis, MI, Geochemist/Sample Management Administrator (SMA). Responsible for Contract Laboratories Program (CLP) sample management paperwork on groundwater collected from site. Development/sampling of monitoring wells, measurement of groundwater levels, and CLP protocol adherence.

Remedial Investigation (RI), ARCO Pipeline Company, LaPorte, IN, Geochemist. Responsibilities included surveying of sampling grid for reconnaissance investigation, implementation of soil borings program and monitoring well installation, monitoring well development and sampling, hydraulic conductivity testing, surveying of monitoring wells, and preparation of RI final report to Federal and State EPA. Soil and groundwater samples were collected to assess plume migration of petroleum hydrocarbons and aid in aquifer definition. Close contact with client.

Soil Investigation, Confidential Pipeline Company, East Chicago Heights, IL, Geochemist. Responsibilities included reconnaissance investigation near pipeline break location, assessment of release of petroleum hydrocarbons, and analysis of detailed geochemical data to assess both upstream and downstream impact of fuel oil constituents. Prepared final report for client prior to submission to state agency and followed up with excavation and removal of impacted soil.

Subsurface Soil and Groundwater Investigation of UST Removal site, Texas Eastern Pipeline Company, Ringling, OK, Geochemist. Responsibilities included oversight of drilling contractors, installation/sampling of soil borings and monitoring wells.

Underground Storage Tank (UST) Removals, U.S. Postal Service, Suburban Chicago, IL, Project Geologist. Supervised UST removal contractors during all aspects of UST removal, cleaning, dismantling, and destruction. Documentation of all site activities, screening of soil/groundwater samples, and wrote 45- and 60-day reports. Close contact with client and preparation of financial documents.

Soil Investigation, Allied-Signal, Danville, IL, Geochemist. Responsible for the organization and preparation of report including geological, geochemical, and other technical aspects of report, as well as sampling of monitoring wells and installation of soil boring/monitoring wells. Environmental sampling conducted to assess plume migration of organic solvent.

Soil Investigation, Illinois Department of Transportation (IDOT), Franklin Street Bridge site, East Peoria, IL, Geochemist. Soil boring and monitoring well installation, sampling of soils and oversight of drilling activities. Aided in compilation of report. Close contact with client, prepared drilling logs, screened soils, and implementation of aquifer characterization activities.

Landfill Remediation Investigation, U.S. EPA, Region V, ARCS site, Mason County, MI, Geochemist. Organization and writing of technical memorandum for rounds 4, 5, and 6 of Phase III sampling during a period of two years.

Phase II Environmental Real Estate Assessment, Leighton Industries/Potts Welding Co., Cicero, IL, Geochemist. Directed field members to perform sampling activities and installed soil borings. Collection of sludge samples and prepared technical report and data interpretation.

Field Investigation Team (FIT) Site Screening Investigations (SSI), U. S. EPA, ARCS sites, Indiana, Field Team Leader/Geochemist. Directed field team members to perform soil sampling, groundwater sampling, sediments sampling, and residential well sampling. In charge of sample preparation and relinquishment of environmental samples to sample management officer (SMO). Utilized strict protocols of U.S. EPA Contract Laboratories Program (CLP) for environmental sampling analysis.

Mixed Waste Investigation, Sherex Chemical Company, Mapleton, IL, Geochemist. Organized and wrote inorganic sampling and analysis plan (SAP), specifically designed for cadmium contamination.

Mixed Waste site, Corning, Inc., Bluffton, IN, Geochemist. Responsible for conducting hydraulic conductivity testing and packer testing for purposes of aquifer characterization. Also sampled soil/groundwater and installed soil borings and monitoring wells.

Computer Skills and Technical Experience

*Proficient with SoftChalk® software for authoring online applications and teaching online coursework.

*Proficient with ESRI ArcGIS 10.x, and 9.x (ArcInfo) and associated extensions including 3D Analyst, Spatial Analyst, Geostatistical Analyst, Business Analyst, and Community Analyst.

*Proficient with handheld Magellan and Garmin Global Positioning System (GPS) and associated mapping software, such as *City Select* by *MapSource*®

*Experience with Microsoft Office (Word, Excel, Access, Publisher, PowerPoint) and various Internet applications, including *Front Page* and *Fireworks*.

*Fluent in Windows 2000, Windows XP, Windows Vista and Windows 7 troubleshooting. Working abilities in computer hardware maintenance (i.e., installation of hardware cards, hard drives, CD-ROM drives, memory addition, printer spooling, and network organization (servers)) and routine utility scans.

*Experience with techniques and hardware associated with X-ray powder diffraction (XRD), X-ray fluorescence (XRF), scanning electron microscopy (SEM), spectrophotometer, sulfide-sulfur partitioning, organic carbon measurement, acid-soluble iron determination, and other miscellaneous geochemical apparatus.

*Experience in the development of undergraduate geology teaching aids and the development of expert systems for computer-aided instruction (CAI).

Research Interests

- Student transition into the geospatial workforce
- Cognitive aspects of spatial concept processing
