- IES Abroad in the Galapagos Islands

## STUDY AWAY: Health Services and Sciences Highlights

“I no longer find myself judging and acting according to a single set of rules and ways of life, but have expanded my analytical horizons. I see and understand the world from an increasingly opened and more flexible view, which actually brings about a priceless self-satisfaction.”

- Claudia, European Union

INTERNATIONAL EDUCATION

## South Africa: Community Health and Social Policy (SIT)

Through the SIT South Africa Community Health and Social Policy program, students can examine primary health care concerns from a South African perspective exploring roles of the South African state, the media, nongovernmental organizations, community structures, and traditional healers.

- ◆ Location: Durban, South Africa
- ◆ Living Arrangements: homestays, houses, hostels,

## University College Dublin: Nursing Program

The Study Abroad Programme at UCD School of Nursing, Midwifery and Health Systems provides an exciting opportunity to advance your knowledge of nursing and midwifery while studying at one of Ireland's leading universities.

As the oldest University School of Nursing & Midwifery in Ireland our aim is to provide students with the very best opportunities and supports to pursue studies in nursing, midwifery and to promote safe, efficient and person-centered professional practice. We offer undergraduate study abroad courses in four areas - General (Adult) Nursing, Mental Health Nursing, Children's Nursing, and Midwifery.

- ◆ Location: Dublin, Ireland

## Argentina: Public Health in Urban Environments (SIT)

Examine the challenges surrounding public health policy and inequities as well as issues related to urban epidemiology in Buenos Aires.

This program provides students interested in public health, health sciences, development studies, and other disciplines with the opportunity to scrutinize health-related challenges in urban environments. The program is based at ISALUD University, Argentina's primary academic institution for public and private health managers and stakeholders.

- Location: Buenos Aires, Argentina
- Language of Instruction: Spanish
