

Study Away in Spanish

All foreign language majors are highly encouraged to study abroad to gain the experience of linguistic and cultural immersion.

Study abroad can help you

Whether you seek to discover Spain over the summer, to get a taste of Costa Rica during January Term, or to study for a semester or a year in Mexico or another destination in the Spanish-speaking world, you will have the opportunity to...

- Work toward fluency in Spanish
- Gain in-depth knowledge and first-hand experience of a Spanish-speaking culture
- Identify ways your knowledge of Spanish can enhance your career plans
- Diversify your world view
- Advance your cross-cultural and problem-solving skills
- Gain confidence in yourself and enhance your interpersonal and communication skills
- Prepare to work in an increasingly diverse and international workplace
- Understand how Spanish is studied in an international context

Studying abroad will allow you to take courses alongside native speaking students or with other foreign students. You can even take courses taught in Spanish in another field of study that interests you.

An experience like this will change your life and career options in many ways. In today's increasingly

interdependent world, graduate programs and employers alike seek people with significant cross-cultural experience *and* knowledge of a foreign language.

Can I afford to study abroad?

YES! A semester abroad is generally not more expensive than a semester of tuition, room, and board on campus; in fact, it often costs less. With multiple sources of funding and programs of varying length, study abroad is financially possible for nearly all students.

Students may generally apply their college scholarships to affiliated programs. Many Elmhurst-affiliated programs offer their own scholarships for study abroad. Through the CPE, Elmhurst also offers endowed scholarships for students with financial need.

Outside scholarship providers that students may apply for include:

- Phi Kappa Phi
 - Boren/National Security Education Program
 - Hispanic Scholarship Fund
 - Gilman
 - Midwest Regional Center IIE
 - EC Affiliated Programs
- Also be sure to contact the Elmhurst College Office of Financial Aid.

Talk to your adviser

Your adviser can help you figure out the best way to fit study abroad into your college career.

Set goals and plan for results

- Begin planning as soon as possible. Set some goals. The best study abroad option for you depends on what you want. Consider: Country/region/location, setting and environment (studying with local or international students, living with a host family), personal and professional goals, and importance of internships or service learning.
- Prepare academically. You may need to take language or other prerequisite courses for your chosen program.
- Research and talk to students who have studied abroad previously.

Sample Questions to Ask the Director of International Education

- I would like to fulfill General Education requirements while abroad. How do I know if my courses meet these requirements?
- Several programs offer courses in the country to which I would like to travel. Which program would you recommend for me based

on my language skills and academic and personal interests?

What to Bring to Your Academic Advising Meeting

- Copies of course descriptions or related information on the courses you are interested in taking while abroad
- Your advising handbook
- A tentative four-year plan (if applicable)

Sample Questions to Ask Your Adviser

- What major/minor requirements do I have left to complete?
- Do I meet the minimum 3.0 GPA required for Study Abroad?
- What general education requirements do I have left to complete?
- I have copies of course descriptions for courses I am considering taking while abroad. Do these courses meet any of my major or minor requirements or any requirements outside my major or minor?
- What do I need to do to follow up with you when I return from study abroad? What should I bring back with me (e.g., course syllabi)?
- Are there particular requirements you recommend I should/should not try to complete abroad?
- What should I do if I get abroad and can't take these classes? May I e-mail you for guidance in making alternative choices?
