

M.S. in **COMPUTER INFORMATION TECHNOLOGY**

MASTER THE SYSTEMS AT THE CENTER OF IT ALL

Learn to Lead in a Collaborative World

Imagine a degree where you master both hard and soft skills—hardware and software, teambuilding and networking. Our student focused approach puts you first. You'll gain the technical know-how, as well as the big-picture vision, to design, program and administer outstanding computer network systems, database systems and web/mobile applications.

You'll also master the practice of interpersonal skills, gain an understanding of the ethical issues in information sharing, and learn how to reach across disciplines and teams in any organization.

Reach Success in the Career You were Meant to Have

Step into a life of professional leadership. Learn to evaluate an organization's needs, then translate those needs into systems that work. You'll thrive in a career in business, government or the nonprofit sector.

Flexible, to Fit Your Life

We understand busy—this is graduate school on your terms. Many courses are offered in our EU Flex format allowing you the ability to attend classes online or on campus, which ever fits your schedule. Lectures are recorded, so you can customize your studies to your schedule and your priorities.

Where Our Grads Go

- Ace Hardware Corporate
- CME Group
- Americaneagle.com
- Exelon Corporation
- Argonne National Laboratory
- United Airlines

Customize Your Degree with Areas of Concentration

- Application development
- Computer network
- Data science

Admission Requirements

- A bachelor's degree from a regionally accredited U.S. institution or foreign equivalent

This program is ideal for students interested in a career in computer programming and networking but don't have a degree or work experience in the field.

Graduate Certificates

If it's not the right timing for a master's degree, consider a graduate certificate in Application Development or in Network Administration.

Optimize Your Résumé with Our MBA Dual Degree Option

Graduates of Elmhurst's M.S. in Computer Information Technology program are eligible to apply to the MBA Dual Degree Option, a one-year program that leads to an MBA with a specialization in Information Technology.

EXPERIENCE THE ELMHURST DIFFERENCE

Flexible programs that fit into your schedule and life. Skills you'll use throughout your career. Mentoring and support for the path you want to travel. It's all part of your Elmhurst Experience.
